and
Israeli Robotics Association, Israel**

EXPRESSION OF INTEREST

Between

**Confederation of Indian Industry, India
and
Israeli Robotics Association, Israel**

This Expression of Interest (EOI) is signed on the _____ day of _____ 2012 *between*

The Confederation of Indian Industry (the "CII") with their headquarters at The Mantosh Sondhi Centre, 23, Institutional Area, Lodi Road, New Delhi 110 003 India; and

Israeli Robotics Association, Israel with their office at 13, Hamelacha St., Rosh Ha'ain, 48091, Israel

The main objective of the EOI is defined in terms of both CII and IROB promoting the Robotics sector in India, Israel and worldwide in order to enhance competitiveness, protect business interests and facilitate market access for products/services/projects in local and international markets. CII and IROB have come together to explore avenues for partnership.

IROB and CII would explore possibilities of working together in the following areas

- To enable technology alliances at supranational, national and corporate level between members of both associations
- To engage in activities for trade promotion which may include facilitation of RFQs, promotion of JVs, support for market entry, and advise through consultative processes
- To encourage networking of members and member associations to stimulate interactions to improve the level of understanding of industry and for sharing of best practices
- Engage in sharing of available knowledge and involve in joint development or facilitation of training and development programmes to cater to members of both associations
- To develop standards at industry level through combined thoughts and inputs from the industry
- Involve in joint research through the establishment of Centres of Excellence

A Memorandum of Understanding (MOU) with work plan, deliverables and mechanism would be developed between IROB and CII based on further discussions to take this partnership forward.
