

Postdoctoral Fellowship in Cognitive Psychology at Ariel University

A full-time postdoctoral researcher position is available in the Department of Behavioral Sciences and Psychology, Ariel University, Israel.

The applicant will work on investigating questions related to Language, Numerical Cognition, and Attention. The position is for two years (with possible extension to 3 years) in Prof. Samuel Shaki's Numerical Cognition Lab at Ariel University. The position can begin immediately.

Required qualifications:

- A recent PhD in Cognitive Psychology or Neuroscience
- A record of Peer Review publications
- Strong background in research methods and statistical analysis
- Experience with experimental psychology software is essential (and programming skills is an advantage)
- Leadership and organizational skills

Please submit to Prof. Sam Shaki (samuelsh@ariel.ac.il): (a) a current CV, (b) a one-page cover letter, and (c) a list of 3 potential referees with their contact information. Postdoc candidates selected for in-depth review will be asked to send additional documents, as detailed in:

<https://www.ariel.ac.il/wp/postdocs/apply/required-documents/>.

The position is open until filled.
